PROFLIE SUMMARY

Results-driven Mobile Application & Full-Stack Developer with 1+ years of experience in designing, developing, and deploying responsive, scalable, and user-centric web and mobile apps. Skilled in HTML, CSS, JavaScript, React Native, React.js, SQL, MySQL, Figma, and UI/UX design, with expertise in API integration, secure authentication, and performance optimization. Strong team player in agile environments, recognized for problem-solving, adaptability, and cross-functional collaboration to deliver high-quality digital products that drive business impact.

WORK EXPERIENCE

1.Mobile Application Developer | Ericson Insurance TPA Pvt. Ltd. | Aug 2025 - Sep 2025

- Built and maintained cross-platform mobile apps with React Native, optimizing performance and UI responsiveness.
- Integrated RESTful APIs for real-time data, boosting usability and engagement.
- Implemented secure authentication and improved navigation for seamless UX.
- Collaborated in Agile sprints with designers and backend teams to deliver features on schedule.

2.Full-Stack Developer | Shunayaverse | Jun 2024 - May 2025

- Built responsive web applications with HTML, CSS, JavaScript, React.js, and MySQL, improving performance by 35%.
- Developed reusable components with cross-browser, mobile-first compatibility.
- Integrated RESTful APIs and optimized database queries for high performance.
- Collaborated in Agile teams with designers and developers to deliver pixel-perfect, user-friendly interfaces.

3.Fullstack Developer | Meeraai tech solutions | Internship | Nov 2023 - Apr 2024

- Developed a full-stack E-commerce website with product listings, a shopping cart, and secure payment integration.
- Built frontend in React.js and managed backend with Python and MySQL.
- Implemented user authentication, RESTful APIs, and a payment gateway for secure transactions.
- Ensured scalable architecture and responsive design, delivering seamless cross-device user experience.

4.UI/UX Designer | CodSoft | Internship |Aug 2023 - Nov 2023

- Designed mobile signup flows, menus, and email templates, increasing engagement and reducing abandonment by 20%.
- Created interactive Figma prototypes using design thinking to align user needs with business goals.
- Conducted usability reviews and applied feedback to refine UI and visual appeal.
- Presented designs to stakeholders, securing approvals and smooth developer handoff.
